International Application No.: N/A  
International Filing Date: N/A  
Atty. Docket No.: Roto-Finish Case 56A

Assistant Commissioner for Patents  
Washington, DC 20231

DECLARATION OF GINA SCHIPPER

Sir:

I, Gina Schipper, declare as follows:

1. I am an employee of Flynn, Thiel, Boutell & Tanis P.C., the law firm responsible for the patent application identified above.

2. I was employed by and at work at the aforementioned law firm on November 9, 2001.

3. One of my responsibilities at the law firm is to transport outgoing mail to the local branch of the U.S. Post Office, and specifically to handle the deposit of Express Mail at the U.S. Post Office.

4. One of my other responsibilities at the above firm is to handle outgoing mail, including mail to the Patent Office. My responsibilities in this regard include checking all documents which are received at the outgoing mail station for both accuracy and completeness, and as part of this checking process, I routinely check each new patent application which is assembled for filing in the U.S. Patent Office to ensure that it includes a properly executed and signed transmittal letter, and that it also includes all of the requisite documents which are being transmitted to the

U.S. Patent Office and specifically those documents which make up the new application including checking to ensure that all pages of the application are present, that all drawing figures are present, and that all other documents which are accompanying the application (such as a check, Declaration, Assignment, priority document, Invention Disclosure Statement, etc.) are present and properly and accurately completed. If I identify any errors in the assembly of the application or in the documents defining the application, then it is returned either to the responsible attorney or the responsible secretary for appropriate correction. Once I have determined that all of the requisite documents defining the application are present, it is then properly packaged for postal handling, proper postage applied thereto, and an entry relative to the matter is entered into an outgoing mail log. The Express Mail package containing the application is then hand carried and personally deposited with the postal authorities at a local branch of the U.S. Post Office.

5. I have been advised as to the missing pages and drawing sheets with respect to the above application, and based on recollection and belief this application was carefully checked by me prior to mailing thereof, and I can positively state that all pages and drawing sheets which make up this application were properly assembled and submitted to the Patent Office via Express Mail on November 9, 2001.

I, Gina Schipper, being hereby warned that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. 1001, and that such willful false statements may jeopardize the validity of the above-identified application or any resulting patent, declare that all statements made herein of my own knowledge are true and that all statements made on recollection and belief are believed to be true.

Date: April 9, 2002
